Mr. Lester Snow, Executive Director
Cal Fed - Delta Program
1416 Ninth Street, Suite 1155
Sacramento, CA 95814

Dear Mr. Snow:

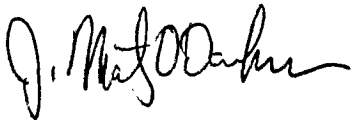

This letter responds to Cal Fed's proposal to raise Shasta Dam's capacity, which will have a detrimental impact on the McCloud River and other Northern California habitats.

I take issue with any proposed impact on McCloud because it jeopardizes one of California's most beautiful and natural treasures. It is also my understanding that the decision to raise the elevation of Shasta and impact the McCloud watershed would be in violation of the Endangered Species Act. Certainly the proposed elevation of Shasta would, to the very largest part, support Southern California interests.

I have been associated with the Bollibokka Club located on the McCloud River for 15 years. I am very familiar with the section of the club property that would be impacted by the proposed dam elevation and can assure you that some of California's most scenic land and wildlife would be destroyed by such intrusion.

I respectfully request your support to deny passing the proposal to elevate Lake Shasta.

Sincerely,

J. Marty O'Donohue
President and CEO
